

HOTEL SHATTUCK PLAZA

BERKELEY

Our Commitment to the Environment

At the Hotel Shattuck Plaza we are dedicated to providing guests with the ultimate Berkeley experience and in doing so we've made a commitment to being eco-conscious. Both the ownership and the management actively seek the latest technology and innovations to provide guests with a comfortable experience that also makes the least impact on the environment. From our mattresses to our produce, the hotel strives to source local products to limit the amount of pollution created in the transportation process and support local businesses and farmers. The goal of our commitment to the environment is to limit our carbon footprint and be a healthy contributor to our community.

Through technology and personal efforts the Hotel Shattuck Plaza is proud to be a leader in the Bay Area by utilizing the following practices:

- Card activated energy management system in all guest rooms
- Low flow toilets and faucets
- Recycled paper used in all offices and business center
- Sheet and towel reuse program
- Green certified cleaning supplies
- Energy efficient light bulbs in all fixtures
- Glass and china used in guestrooms in place of paper products
- Freon HVAC system in which heat and cold are exchanged in the building to control the temperature with minimal energy
- Double pane windows
- On demand water heating
- Extensive waste recycling program
- Local, sustainable and organic food and beverage whenever possible
